

# ERABEEF

## Product > ERABEEF

### General description

Erabeef is a specially formulated pre-mixing of multi-vitamins, minerals and Orgacids\* for beef cattle production.

Among multi-vitamins provided, vitamin A is essential for normal growth, reproduction and maintenance. Insufficient Vitamin A is associated with lowered fertility in both bulls and cows. Vitamin D is required for proper development of bone. Vitamin D deficiency in calves results in bowing of the leg bones (rickets). In older animals bones become weak and easily fractured. Vitamin E and /or selenium causes nutritional muscular dystrophy, commonly called white muscle disease. This may be prevented by proper dry cow management and adequate levels of Vitamin.

### Advantages:

By daily mixing into beef cattle feed, the cattle would enjoy following benefits:

- Food and mouth disease prevention
- Increase Weight gain rate
- Shorten Fattening Time
- Disease prevention
- Better in feed conversion ratio
- Lower expenses on medical drugs

### Technical Specifications:

Item	Ingredient	Content (g/kg)
1	Vitamin A	0.300 MIU
2	Vitamin D	0.060 MIU
3	Vitamin E	0.080 gm
4	Vitamin K	0.360 gm
5	Manganese	1.000 gm
6	Zinc	0.950 gm
7	Iron	1.000 gm
8	Copper	0.200 gm
9	Cobalt	0.100 gm
10	Iodine	0.100 gm
11	Salt	150.000 gm
12	DCP	75.000 gm
13	Orgacids	32.000 gm

Inclusion level: 1kg/Metric Tonne

Pack size: 25kg

Keeping direction: Keep in cool and dry place, keep away from direct sunlight.
