

EXTIMA 300

Product > Extima 300

General description

EXTIMA 300 is a high concentrated source of energy supplement feed fat, specially produced from 100% vegetable based fully refined palm oil fraction which are non-hydrogenated and free from Trans Fatty Acids (TFA). It has higher palatability and utilization to improve feed conversion ratio (FCR).

Why EXTIMA 300?

EXTIMA 300 is a lecithinized granulated feed fat that improve the Emulsifying properties and thus increase the digestibility of your poultries and animal pets.

Advantages:

- Highly digestible energy source
- Improve feed intake weight gain
- Shorten fattening time

Feeding recommendation

:
Broiler, Grower and finisher diet : 3-5%

Application : Used as ingredient in the production of premixes and complete feeds

Packing : 25kg (55lb) paper bag with PP woven lamination

Storage : Store in cool and dry place, away from direct exposure to sunlight and heat

Shelf life : 12 months

Technical Specifications:

Parameter	EXTIMA 300
Total Fat Content	94%
Free Fatty Acids (As Palmitic)	2.0% Max
Moisture and Impurities	0.5% Max
Slop Melting Point	56 Deg C
Iodine Value (WIJ'S)	24 Max
Colour	Creamy Yellow
Physical Appearance	Powder/ Granular
Lecithin	Added
Dry Matters	100%
Typical Fatty Acid	
Saturated Fatty Acids	
C14:0 Myristic Acid	Approx 0-3%
C16:0 Palmitic Acid	Approx 70-80%
C18:0 Stearic Acid	Approx 5-10%
Unsaturated Fatty Acid	
C18:1 Olein Acid & higher	Approx 8-15%
C18:2 Olein Acid & higher	Approx 4-10%

Composition:

Physically refined, bleached and deodorized GMO Free Vegetable Palm Oil.
