e.g : With a production of 40,000MT and 6.5million broiler per year.

We think you can save USD 0.10 per bird which is = USD 650,000

Feed cost saving by reducing 2% crude protein = USD 400,000

Total USD 1 million per year saving.

The biggest benefit is product differentiation as we see successful story from our customer in China, Iran, Taiwan, Singapore etc. You should be able to make more Money when your feed is "ORGACIDS inside".

Let's study our proposal, with ORGACIDS adding USD 4.5-5/MT in feed, you will maximize your profit and reduce your cost
